Online follow-up courses are also offered to help improve what you learn in the classrooms and make sure you understand the policies and procedures of using the system. Find out more about MRED here. One of the largest multi-listing services in the country, Midwest Real Estate Data LLC, has signed a multi-year renewal agreement with dynaConnections Corp. for its highly rated connectMLS platform. MRED has almost 40,000 subscribers. Lisle, Illinois-based MLS has been a dynaConnections client since 2003, back when MRED had several listing services for Northern Illinois (MLSNI). At the time, dynaConnections was a 2-year-old Austin, Texas-based startup founded by former realtor and current CEO Tim Ford. MRED employees and members share our continued commitment to innovation and accept our commitment to surpass what the real estate industry expects from the MLS solution provider. We look forward to seeing what new achievements we can achieve together. Ford said in a statement. In June, MRED announced that in partnership with dynaConnections, it has pledged to make connectMLS more mobile friendly, starting with incorporating adaptive design into online real estate portals that its members share with customers. MRED is ConnectMLS's largest user, serving more than 48,000 realtors, according to the company. ConnectMLS received the highest ratings from users in satisfaction surveys conducted last year by consulting firms Clarity Consulting and WAV Group. Our mission is to provide the very best of MLS to our customers, said Jeff Gregory, chairman of THEED, in a statement. We have succeeded largely thanks to dynaConnections, whose employees tirelessly deliver the MLS solution, which is unsurpassed in the industry. Their service and the responsiveness towards our staff is first class. Russ Bergeron Russ Bergeron, former former President and CEO, resigned from MLS in June. MRED has retained the executive search firm Of Leonard Pfeiffer and Co. to search for his replacement. MRED declined to comment further on the matter. LISLE, Ill., Dec. 04, 2019 (GLOBE NEWSWIRE) -- Midwest Real Estate Data (MRED) has announced the addition of voice assistant capabilities to its multi-listing services (MLS) offerings. The new connectMLS feature allows MRED subscribers to ask Amazon Alexa or Google Assistant to tell them about key business information such as their lists status, customer messages, and market statistics. Equipping real estate professionals with on-the-go access information is the next step in MLS innovation, said MRED President/CEO Rebecca Jensen. Whether it's in the car on the way to meeting customers or on their smart speaker at home, connectMLS is there to help our subscribers provide a higher level of service. MRED subscribers can easily use the new connectMLS voice assistant feature by saying: Alexa, open connectMLS or hey, Google, talk to connectMLS. Real estate professionals will be asked to use their MLS credentials at the time of their first entry and random logins afterwards to securely access the information available. The MLS voice assistant function is the result of MRED's partnership with Voiceter Pro, a leading provider of voice applications for the real estate industry. MRED shows that this forward-thinking organization is at the cutting edge of technology, bringing tomorrow's tools to its subscribers today, said Voiceter Pro CEO Miguel Berger. The MLS Voice Assistant function is an important part of the future of real estate practice. Voice assistant connectMLS is one of the many recent MRED innovations aimed at continuously improving the MLS experience and usability. Only in 2019, MRED added Remine Proas to the included subscriber perks, introduced innovative real estate team functions and launched artificial intelligence capabilities.
